

### SUCTION REGULATORS

Various regulators  
to choose from

Safe and Accurate  
Reliable  
Quality

### FLOW REGULATORS

For the precise  
delivery of air/gas

Single and twin meters  
Easy to read  
Simple to adjust

**CULLUM & BROWN, INC.**

### QUICK ADAPTERS

Available for all  
compatible connections

Chemtron style adapters  
Diamond quick style connect adapters  
DISS style adapters

**CLEAN AIR AND VACUUM SOLUTIONS**

## SCROLL COMPRESSOR PACKAGES

### A complete compressor package

- Quiet**
- Available with or without enclosure**
- Little Maintenance**

The oilless scroll compressor technology provides clean air to your facility. Included in each package is a desiccant dryer, ASME air receiver, a medical filter system, integral CO monitor, dewpoint monitor and UL listed NEMA 12 demand control system. All packages meet NFPA 99 requirements.

## RECIPROCATING AIR PACKAGES

### CLEAN AIR DELIVERY

- Performance Ready**
- Sturdy constructed**
- Accessible**

This filter package is designed for all medical and clean air applications. NFPA 99 compliant. The inline filters remove oil and water aerosols, solid particles with little pressure drops. Filter systems are duplexed to provide uninterrupted treatment and performs to meet end use demand.

## MEDICAL FILTER SYSTEMS

## LIQUID RING VACUUM SYSTEMS

### A complete liquid vacuum system

- Available in Simplex, Duplex, Triplex or Quad**
- Medical or Laboratory applications**
- Cool running and longer wear**

The liquid ring vacuum system will deliver up to 29" Hg. Our packages are NFPA 99 compliant, electric motor driven, positive displacement non-pulsating liquid ring vacuum pumps. ASME vacuum receiver and electrical control components accompany the package with piping and wiring, ready for use.

### A liquid free answer

- Available in lubricated or dry modules**
- Vibration Free**
- Quiet Operation**

The rotary vane vacuum systems will deliver up to 29" Hg. Packages are equipped with electric motor driven pumps, ASME vacuum receiver and electrical control system. Each pump is protected by a temperature switch, check valve, pump isolation valve, source isolation valve and flexible connector. All systems are NFPA 99 compliant.

## ROTARY VANE VACUUM SYSTEMS

### ENERGY SAVINGS analysis

1. LEAK DETECTION AND IDENTIFICATION
2. INFRARED TEMPERATURE MEASUREMENT
3. DEW POINT MEASUREMENT
4. FLOW MEASUREMENT
5. SYSTEM PERFORMANCE ANALYSIS
6. SUPPLY DIAGNOSTICS
